WHEREAS, the County adopted King County Code Title 17, also known as the Fire Code of King County ("KCC Title 17"), to set fire safety standards within its unincorporated areas; and

WHEREAS KCC 17.04.230.3 authorizes the County Fire Marshal to delegate fire prevention inspections authority to the Chiefs of the King County Fire Districts and City Fire Departments within the County ("Chiefs") through inter-local agreement; and

WHEREAS the County and Service Provider agree that the Service Provider is in the best position to administer and perform inspections of the Fire Code Operational Permit Program on behalf of the County; and

WHEREAS the Service Provider possesses authority to provide the services identified in this Agreement pursuant to RCW 19.27.050; RCW 52.12.031(7), and RCW 52.26.090(1); and

WHEREAS it is the parties' intent that, except to the extent specifically delegated herein, any and all discretionary decision-making authority delegated to the County by RCW Title 19 including but not limited to code enforcement action shall remain with the County; and

WHEREAS, this Agreement is authorized by the State Building Code, Chapter 19.27 RCW, and the Inter-local Cooperation Act, Chapter 39.34 RCW.

NOW THEREFORE, in consideration of the terms and provisions herein, the County and the Service Provider agree to the following:

1. Authorization to Administer Sections of International Fire Code.

1.1 Authorization. The Fire Marshal hereby authorizes and delegates to the Chief of the Service Provider the administrative authority to conduct KCC Title 17 inspections in accordance with IFC Sections 105 and 107, and KCC Title 17 as it may be subsequently amended, on behalf of the County within the unincorporated areas as described in this Agreement (the "Program"). The Program will be conducted for those operational permits required by IFC 105 and as required by the County.

1.1.1 General Inspection Authority. The Service Provider shall have the authority to perform building and property inspections that it deems necessary to provide fire prevention services and pre-fire planning inspection for properties that do not require an operational permit as identified in the Program. No inspection fee or permit shall be required for any building and property inspected beyond the requirements of the Program. The scope of the Program may be periodically amended by written mutual agreement between the County and Service Provider, as allowed by State and County codes.

1.1.2 Designation. For the purposes of this Agreement, the County designates the Service Provider's Fire Chief as the County's Fire Chief and the Service Provider's Fire Chief or designee as the fire code official within the area described in Section 1.1.3.

1.1.3 Service Area. The Service Provider shall be responsible for administering the Program in the unincorporated area of King County identified in Exhibit A ("Service Area").

1.2 Collection of Fees. In consultation with the County Fire Marshal or the Permitting Division Director in the Department of Local Services, the Service Provider shall establish an annual fee schedule that does not exceed the County's fee schedule. The Service Provider shall be responsible for assessing and collecting any and all fees charged under the Program and shall have the authority to retain and expend all fees collected under this Agreement.

1.2.1 Annual Fee Adjustment. The Service Provider may adjust its fee schedule each year, on a January 1st to December 31st cycle, by the amount equal to the percentage increase in the Consumer Price Index (All Wage Earners) for Seattle-Tacoma-Bellevue as reported in June, provided that the adjustment does not cause the Service Provider's fee schedule to exceed the County's fee schedule.

1.3 Applicable Codes and Standards. The County delegates to the Service Provider all authority under the KCC Title 17 and the Washington Administrative Code (WAC) Chapter 51-54A necessary to implement and fulfill the provisions of this Agreement.

2. Administration and Implementation of the Program.

2.1 Scope. The Service Provider shall maintain a master list of fire operational permits identified in the Program in the Service Area. The County shall provide a list of fire operational permits previously issued by the County within 45 days of initial execution of this Agreement. The Service Provider shall maintain a list of all permit applications, inspection records and permits issued under the Agreement, and provide the same to the County upon request. The Service Provider is authorized to release all inspection records to the Washington State Rating Bureau upon request.

2.2 Permit File. At the Service Provider's request, the County shall provide the Service Provider with a copy of its fire inspection permit file or any related permit file for any property identified on the master list. The County will provide this information at no cost to the Service Provider.

2.3 Application Submittal. The County shall direct all requests for operational fire permits within the Service Area directly to the Service Provider. The Service Provider shall establish the permit application requirements and utilize its permit application form. The Service Provider shall receive and process all fire operational permit applications for properties within the Service Area.

2.4 Inspections. The Service Provider shall conduct permit inspections within the scope of this Agreement at least once annually but has the discretion to inspect more frequently. The Service Provider shall establish and utilize its inspection form.

2.4.1 Inspection Procedures. The County and the Service Provider shall adhere to the following conditions to ensure coordination of the Service Provider's inspections identified as part of the Program.

- a) The Service Provider will determine if a valid permit is held by the owner of the occupancy requiring a permit. If a valid permit is not held, the Service Provider shall inform the owner of the occupancy that a Permit Application Form must be completed and filed with the Service Provider.
- b) If the owner of the occupancy denies the Service Provider the right of entry, the Service Provider will forward the occupancy name, address, date of the denied entry and a brief written narrative of the circumstances to the County Fire Marshal for further action.
- c) If, after three attempts within ninety days (90) days, the Service Provider is unable to make contact with the owner of the occupancy, the Service Provider will forward the occupancy name, address and a brief written narrative of the circumstances including dates of attempts made to the County Fire Marshal, or as otherwise directed by the County, for further action.
- d) The County shall promptly provide a written status report on all code enforcement matters within the Service Area upon request. The Service Provider is not obligated to perform additional inspections to any occupancy that has been forwarded to the County for code enforcement, until such time as County enforcement actions have been completed.

2.4.2 Violations of the Fire Code. The County and the Service Provider shall adhere to the following conditions to ensure coordination with the County's fire code enforcement efforts.

- a) If the Service Provider identifies a code violation(s) during an inspection, the Service Provider shall document the violation(s) with any and all specific code citation(s) on the inspection form and will issue a written inspection notice to the responsible party. The Service Provider will schedule a re-inspection of the occupancy.
- b) If the Service Provider determines that a violation constitutes an immediate danger to life or property, the Service Provider shall immediately contact the County Fire Marshal and post a do not occupy placard, stop work notice or other emergency order at the Service Provider's discretion.
- c) The Service Provider shall work with the responsible party until the corrections are made, until no further progress is made in correcting the violations, or until 90 days has elapsed from the initial inspection, whichever comes first. If the responsible party is

unable to achieve required corrections as described above, the Service Provider shall forward the responsible party name, list of violations, and a brief written narrative of the circumstances to the Fire Marshal for code enforcement actions.

- d) The County shall promptly provide a written status report on all code enforcement matters within the Service Provider's Service Area upon request.

2.5 Permit Issuance. The Service Provider shall issue operational permits to applicants once all applicable fire codes and standards have been met and any fees have been paid. Permits will not be issued until all code violations are corrected and fees are received.

2.6 Form Review and Approval. Upon request of the County, the Service Provider shall provide documents for review by the County.

2.7 County Assistance.

2.7.1 Interpretation of Code. The Service Provider shall consult with the County Fire Marshal if any questions regarding the interpretation or application of the KCC Title 17 necessary to carry out the provisions of this Agreement arise. 2.7.5 Construction Related Activities. The County issues development permits which include related activities such as installation of tanks, racking, and spray booths. An Operational Fire Permit would be required for these processes. The County shall notify the Service Provider that a permit application was received which would require an Operational Permit to be issued by the Service Provider. This notification is to ensure coordination between the County and the Service Provider. At application processing and after final approval, the County shall provide the Service Provider with the permit number, scope of work, business name.

2.7.6 KCC Title 17 Updates. The County may consider future amendments to KCC Title 17 when requested by the Service Providers to clarify the provisions of this Agreement or streamline their efforts to carry out the provisions of this Agreement.
