# Gold Jewelry Thefts/Robbery Series

After a slowdown over the winter, this series has picked up again with 6 incidents reported in May (as of May 8<sup>th</sup>). Characteristics of this series include:

- Elderly victims (often female) wearing gold jewelry and watches – usually out for a walk
- Suspects engage victims in conversation/call the victim over to their vehicle
- Remove real jewelry while placing fake jewelry on victim
- May use distraction techniques if victim is not alone
- Mostly occurring late afternoon to early evening (a few mid-morning)

Similar incidents occurring region-wide

Agencies are working together/sharing information to disrupt this series

**THANK YOU**
