

# Climate Resiliency & Sustainability in Vegetation Management Plan Update

## Overview

The City of Redmond has developed a [Climate Resiliency and Sustainable Vegetation Management Plan \(CRSVM\)](#) to meet climate commitments and adapt to climate impacts in Redmond. This plan aims to honor the values and priorities voiced by the community to make Redmond a leader in best practices for managing vegetation across public property, including rights-of-way, parks and trails, city facilities, street trees, waterways, tree canopy, and more.

The Park Operations Team began implementing in 2024, have continued this work in 2025 and 2026, and will move this initiative forward into the future.

## 2025 Accomplishments
