Community Health Program

Mission

At the heart of our Community Health and Wellness Program is a commitment to promoting the physical, mental, and overall wellbeing of individuals residing in our communities. By supporting connections to resources that provide wraparound services to clients in need, we strive to break down barriers and provide accessibility to long-term resolution.

Vision

A thriving Community Health and Wellness Program aimed at providing resources that empower individuals of all ages and backgrounds to make positive lifestyle choices, build strong supportive social connections, and achieve positive outcomes of independence. This is achieved by fostering a culture of wellness and promoting community-wide health equity where everyone can live, work, and play to their fullest potential.
