

## Project Area 3

### NE 90th St. Basin Retrofit

### Retrofit of Regional Pond along 90th Street

#### Legend

- Existing Storm Chamber
- Existing Storm Trunk Line
- Storm Bioswale Edge
- Existing Storm Pipe
- Drainage Pond (City Owned)
- Stream/Creek

#### NOTES

1. Pond to be upgraded to provide stormwater treatment using one of the BMP treatment facilities defined in the "Stormwater Management Manual for Western Washington" (Ecology Manual).
2. Existing biofiltration swale provides treatment of stormwater from the existing residential area. Likely to remain in place.
3. The Sammamish River is a flow control-exempt water body per the Ecology Manual, Appendix I-E.
