how state and local governments use public funds and develop strategies that make government more efficient and effective.

The auditor performed a financial statement audit to provide an independent opinion on the City's financial statements and results of operations to determine if the financial statements present a reliable, accurate picture of the City's finances. There was a planned delay in the timing of the 2023 audit due to the implementation of the City's new Financial System (D365), which went live in June 2023. The delay will also impact the timing of the 2024 audit. A delayed audit is typical when financial systems are impacted, and the City has been working in partnership with the State Auditor's Office to allow for the exception to the standard audit practice. The 2024 financial statement audit is estimated to start December 2025 with a completion target date of March 2026.
