

## **Attachment B – Additional Project Information**

### **Grass Lawn Park Softball Field #1 and Hartman Park Baseball Infield Synthetic Turf Replacement Project**

#### **Project Discussion**

The synthetic turf infill that will be installed at Grass Lawn Park Softball Field #1 will be the same thermoplastic elastomer (TPE) material that is currently used on Grass Lawn Park Multi-Use Field 2. This is a safe and eco-friendly material that is a durable alternative to crumb rubber.

The synthetic turf infill that will be installed at Hartman Park Baseball Infield will be a cork material. This is also a safe and eco-friendly material that can closely represent natural turf, offering similar “ball bounce” and great playing conditions.

#### **Project-Related Community/Stakeholder Outreach**

Project information will be available through the City website, social media and signage.

#### **Bidding**

In 2021, the City joined Sourcwell as a participating agency for its Cooperative Purchasing program (Account Number: 43833) which allows the City to use the buying power of government, education, and nonprofit organizations to competitively solicited and awarded contracts. Using Sourcwell allows the City to streamline the procurement process. Cooperative purchasing is “Procurement conducted by, or on behalf of, one or more Public Procurement Units” as defined by the American Bar Association Model Procurement Code for State and Local Governments. Public Works used the Sourcwell Purchasing Cooperative to obtain a quote from Coast to Coast Turf LLC.

#### **Fiscal Information**

<b>Current Project Budget</b>	
Parks CIP	\$2,450,461
<b>Total Funding</b>	<b>\$2,450,461</b>

<b>Estimated Project Costs</b>	
Design	\$79,730
Construction	\$1,701,930
Contingency	\$119,135
<b>Total Estimated Project Cost</b>	<b>\$1,900,795</b>

<b>Budget Difference</b>	<b>\$549,666</b>
