TITLE:

Redmond 2050: Final Planning Commission Recommendations for Adoption in 2024

OVERVIEW STATEMENT:

Staff recommends that the City Council discuss and provide direction on topics or issues raised at its September 3 meeting or by email. New for September 24:

- Staff has completed responses to all identified topics or issues (Attachment A).
- Staff is recommending minor additions and revisions in response to review by the Department of Commerce. These are noted in Attachment A. A final review letter from the Department of Commerce is pending.
- Staff has attached the correct version of RZC 21.12.505 Transition to New Standards (Attachment B). An older version was inadvertently attached to the Planning Commission Report for the Omnibus Package.

Additional study session time is being held as needed on October 8.

On July 10, 2024, the Planning Commission recommended approval of the Water System Plan (WSP) and General Wastewater Plan (GWP) Updates and related changes to Redmond Zoning Code (RZC 21.17.010). The WSP outlines actions for the City to take to protect its underground drinking water resources and provide sufficient water storage and distribution to meet the drinking water, irrigation, and fire flow needs of Redmond's residents and businesses for the

next two decades. The GWP update package represents a "major amendment" to the 2021 General Wastewater Plan and includes related changes to RZC 21.17.010. The GWP has been updated using population growth projections that align with Redmond 2050. It identifies actions the City's Wastewater Utility will need to take to ensure that sewer system capacity matches the increased demand created by growth.

On July 31, 2024, the Planning Commission recommended approval of the Summer 2024 Omnibus / Wrap-up Package. This package ties together loose ends, corrects errors, addresses requests that have arisen over the past couple years, and generally makes a whole plan out of what are now several parts. It also includes a wide range of Redmond Zoning Code (RZC) amendments needed to correct errors, eliminate duplication, address requests that have arisen during Redmond 2050, and generally implement Redmond 2050 policy direction.

These two packages are the final Redmond 2050 packages to be reviewed for adoption in 2024. Planning Commission Report materials can be found in the September 3 business meeting packet beginning on page 57.

Staff also included proposed RMC amendments in the September 3 packet that are needed to implement Council direction on related Redmond 2050 content.

- Proposed amendments to RMC 3.38, Multifamily Housing Property Tax Exemption (MFTE) update MFTE provisions for Overlake and Neighborhood zones to align with proposed inclusionary zoning updates and expand the geography within which MFTE can support the development of affordable housing. An updated version of RMC 3.38 is attached to this memo (Attachment B). It includes one additional proposed Residential Targeted Area (RTA). Staff will ask the Council to set a hearing date by resolution on Oct. 1 in order to hold a state-required hearing on Oct. 15.
- Proposed amendments to RMC 3.10, Impact Fees, create exemptions from transportation impact fees for affordable housing and daycares, and update transportation impact fees to reflect the proposed Transportation Facilities Plan (TFP).
- Proposed amendments to RMC 13.20, Stormwater Drainage Capital Facilities Charges, align with recommended changes to Overlake zoning regulations to allow up to 100% lot coverage on a site (see especially RMC 13.20.047).

In March 2024, Council indicated support for setting a higher transportation impact fee rate (\$8,200 per person trip) than staff proposed at the time (\$6,200). Staff committed to bring back a proposed set of additional projects that could be funded by adopting a higher rate. That work is not complete, and so staff is recommending that the Council adopt the TFP and transportation impact fee schedule as proposed while the work continues. Adopting a new a TFP in 2024 is important because 1) development projects are waiting on a new TFP so that the projects will be eligible for impact fee credits, 2) most TFP projects have been built and without a new TFP Redmond risks having to slow down or pause development until a new plan is adopted.

To fulfill the earlier commitment to Council, staff will seek feedback from the Council on a proposed project prioritization methodology in November, then in 2025 staff will propose TFP amendments based on that methodology and on the higher impact fee rate as part of the update to the Transportation Master Plan.

Time Constraints:

The Comprehensive Plan periodic update must be complete by Dec. 31, 2024. The 2011 Water System Plan was due for an update by July 2024. Department of Health has approved the delay in completion and adoption of the plan, but additional delays would be detrimental as there are capital projects recommended in the Plan that should be added to the CIP and budgeted.
