1. District Court Program Budget: A budget that is created by the Court to portion out salaries and benefits by specific court programs

2. Based on the District Court Program Budget (Attachment A), contract cities represent a percentage of District Court Program Budget Costs ----->

3. The District Court Program Budget will be updated annually as will the percentage representing contract cities.

4. The multiplier referred to in Exhibit A is the percentage of the District Court Program Budget attributed to contract cities (see Attachment A).

5. The "City Cost" for each year, calculated by the County, is equal to the sum of Attachments A through G and Facility Costs.

6. The account codes referenced throughout this Exhibit may be modified by the County and the codes referenced herein are deemed to include any future successor or modified codes adopted by the County.

7. Amendment to ILA 2025 added city cost allocation for active probation cases handled by KCDC.

Methodology/Definitions/Notes:

- 1. The multiplier by facility is the average of the percent of clerical need for contract cities in the facility and the percent of judicial need for contract cities in the facility. The City Cost is the product of the actual staff salary and benefits for security and screening at each facility and the multiplier by facility.
- 2. FTE costs include salary, benefits, overtime, vacation, sick leave and required training for security personnel.
- 3. Security cost increases shall not exceed 100% (one hundred percent) of the Seattle-Tacoma-Bellevue CPI-W, annual, plus an additional 1% (one percent), with a maximum capped increase of a 5% (five percent) in any given year for the total security costs per facility starting in 2022.

Summary of All City Costs for Cities

Methodology/Definitions/Notes:

1. This attachment (and NonFacility Costs and Facility Costs- Security portion only) divide the overall City Costs as determined in Exhibit A to individual cities based on the same method currently used to allocate costs. Facility costs allocation is noted below.

- 2. Those costs which are mainly salaries and benefits and are non-facility based, Attachments A, B, E, F and G, are allocated based on each cities percentage of all cities' clerical weights.
- 3. Those costs which are facility based, Attachment C is allocated based on the average of city case filings percentage and city judicial weights percentage per facility; Attachment Facility Costs
- allocates facility costs based on FMD standard square footage for an FTE-clerk and judicial square footage based on an inidvidual building's average courtroom+jury+chambers+348 jury assembly room square footage 4. The tables below describe how this method allocates these costs across each city.

Methodology/Definitions/Notes:

1. The facility rate per square foot for each year is calculated in the attachment (tab) "Facility Rates." Changing the year in the middle of this sheet (cell A25) will update the facility rate.

2. Refer to Exhibit B for the overall methodology for the rate per square foot. Facility costs are based on FMD standard square footage for an FTE-clerk and judicial square footage based on an inidvidual building's average courtroom+jury+chambers+348 jury

assembly room square footage. 3. Figures for dedicated and shared spaces are based on rentable space consistent with BOMA standards.

4 The multiplier by facility for security is the average of the percent of clerical need for contract cities in the facility and the percent of judicial need for contract cities in the facility. The security cost is the product of the multiplier and the total security cost per facility as calculated on tab c.

- 1. Contracting Cities changed in 2005 & 2007.
- 2. Cities that no longer contract with KCDC are not reflected above.
- 3. Cities with their own probation departments collect and retain their probation revenue. Their probation revenue is not included in this model.
