

**MEMO TO:** Planning and Public Works Committee of the Whole

**FROM:** Aaron Moldver, Environmental Programs Supervisor

Anne Dettelbach, NPDES Permit Coordinator

**DATE:** October 8, 2019

**SUBJECT:** 2019-2021 Municipal Stormwater Capacity-Building Grant in the Amount of \$50,000

**I. PURPOSE** ☐ For Info Only ☐ Potential Agenda Item ☒ Scheduled for Council Action

**II. RECOMMENDATION**

Authorize the Mayor to execute the Interagency Agreement between the Washington State Department of Ecology and the City of Redmond (Agreement No. WQSWCAP-1921-RedmPW-00066) in the amount of \$50,000 for the 2019-21 Biennial Stormwater Capacity (Capacity) Grant.

**III. DEPARTMENT CONTACTS**

Dave Juarez, Public Works Director	425-556-2733
Gary Schimek, Environmental & Utility Services Division Manager	425-556-2742
Aaron Moldver, Environmental Programs Supervisor	425-556-2756
Anne Dettelbach, NPDES Permit Coordinator	425-556-2824

**IV. DESCRIPTION/BACKGROUND**

The Washington State Department of Ecology has offered the City of Redmond a Biennial Stormwater Capacity Grant in the amount of \$50,000 to support implementation of the Western Washington Phase II Municipal Stormwater Permit (NPDES Permit). This is a non-competitive grant, offered to Western Washington communities every two years. There are no match requirements for the grant.

The City has previously received funds under this same grant program – most recently, \$50,000 for the 2017-2019 grant cycle. The 2017-2019 funds were used to help purchase a slope mower for Storm crew use, create a Low Impact Development Assessment Tool for use by developers, purchase outreach and educational materials for the pet waste outreach program, and to fund spill investigation activities.

The 2019-2021 Capacity Grant will be used to purchase additional equipment or safety gear to support City storm system inspection and maintenance activities, replenish spill response supplies such as absorbent pads and booms, and purchase materials to support permit-related community outreach campaigns (e.g., pet waste stations or supplies).

**A. Analysis** (Please include process to-date and any service delivery or fiscal considerations.)

Process to date

<b>Date</b>	<b>Action</b>
July 2, 2019	City notified by Department of Ecology that 2019-2021 Biennial Stormwater Capacity (Capacity) Grant money is available.
July 12, 2019	City staff submits on-line “application” indicating interest in grant support.
September 17, 2019	City notified that Capacity Grant agreement is ready for signature.
September 23, 2019	3P briefed on Capacity Grant.

Service delivery and fiscal impacts

Acceptance of the Capacity Grant facilitates City efforts to fully meet stormwater permit obligations related to maintenance and operations, spill response, and public outreach and education.

Maximum eligible expenditure under this grant is \$50,000. Grant monies are available now. Washington State Department of Ecology’s Water Quality Program provides 100% of the monies. No match is required.

**V. TIME CONSTRAINTS**

Grant funds must be fully expended by March 31, 2021. Ecology has requested that the City sign and return the grant agreement by November 4, 2019, if possible.
