OUTREACH GOALS:

The intention of the proposed parking management strategies is to make Downtown Redmond an accessible and vibrant place for all users. City of Redmond staff want to ensure that the suggested strategies to manage parking in the Downtown core are reviewed, refined, and supported by the community before a plan to implement the changes are adopted.

There will be an additional focus to consult with users who will be most impacted by any changes, i.e. commuters, businesses, visitors with and without accessibility needs, and Downtown residents.

The goals of outreach for the Downtown Parking Management Strategic Plan are to:

1. Educate community on findings of the Existing Conditions Report
2. Confirm that what we heard from public is accurately reflected in the Existing Conditions Report and Preliminary Strategies
3. Have public help to prioritize the Preliminary Strategies.

Implementation Plan						Collaboration with relevant staff & departments on implementation process Strategies assigned and adopted into department workplans

Overview:

Once the Parking Management Strategies have been finalized, a more detailed Implementation Plan will be created by Planning Staff. The Implementation Plan will consider the appropriate department owners for each of the proposed strategies and the process that will be needed to make the suggested changes. Long Range Planning Staff is responsible for meeting with the appropriate owners for each of the elements that are set to be adopted. Some strategies will have associated budgetary considerations (ie enforcement) and additional outreach needs (ie changing management of commuter parking facilities) which will be enumerated in the Implementation Plan.

Outreach Tools:

- Project webpage
- Public Comment at Planning Commission
- Interdepartmental collaboration with City of Redmond staff

Key Dates:

- March 2020: Planning Commission Meeting
- March 10, 2020: Council Study Session
