The King County Regional Hazard Mitigation Plan assesses natural and human-caused hazards that can impact our region and develops strategies to reduce risk and build resilience. The Redmond Annex to the County plan focuses on a hazard and risk analysis of the environment in our city.

- Provide technical support and information on which preparedness and response actions are based.

B. Fiscal Note:

Acceptance of this Annex will fulfill the requirements of King County and the City of Redmond to update hazards and risks in order to plan and strengthen mitigation efforts.
