TITLE:

Police Department One-Time Monies to Offset Costs Related to Criminal Justice Legislation (SB 5092)

OVERVIEW STATEMENT:

This is for information only. A budget adjustment may be brought forward from Finance at a later date. As a result of the 2021-2023, State of Washington operating budget, the City of Redmond received approximately \$281,000 in one-time general funding to offset the costs of criminal justice-related legislation enacted between January 1, 2020, and June 20, 2021. The Police Department has identified less lethal equipment and training options to ensure compliance with appropriate police de-escalation techniques to include Taser upgrades, Bola Wrap, and Virtual Reality training systems.

OUTCOMES:

The police department wants to ensure the safety of the community and staff when responding to critical incidents requiring appropriate de-escalation techniques while providing the most current and functional training and equipment. The department anticipates allocating these funds as follows:

- **BolaWrap:** The Wrap can safely & humanely restrain resisting subjects from a distance without relying on pain compliance and while keeping all involved safe. When used to control subjects in a mental or drug-impaired crisis, this tool enables officers to keep the community safe and get people the help they need without causing injury. - **Virtual Reality (VR):** Axon VR Training provides comprehensive real-world training paired with Taser and other weapons systems to ensure training, coaching, and development for critical incidents. Empathy insights, critical thinking, analytical, and de-escalation skills training are provided. Officer preparedness and tools to identify and address the psychological impacts of the public safety profession are addressed. - **Taser 7 upgrades:** Upgrading to Axon Taser 7 provides for the most current platform, integrates with use/training records, and integrates with the Virtual Reality training system.
