### **III. DESCRIPTION/BACKGROUND**

The Planning Commission met during March and April 2020, to consider proposals to amend the Comprehensive Plan for inclusion in-or removal from-the scope of the 2019-20 docket. The Commissioners held a public hearing, developed an issues matrix, and applied the seven threshold criteria from RZC 21.76.070.J.2.b to determine whether six new proposals merit further consideration as docketed items. The Planning Commission Report is provided as Attachment A.

In brief, the Planning Commission concurred with the Technical Committee's recommendations which assigned proposed amendments to one of the four categories.

1. Recommended, in part, for Further Consideration on the Docket
2. Not Recommended for Further Consideration on the Docket
3. Not Recommended for Further Consideration on the Docket but Referred to an Alternate City Process
4. Recommended for Carry Over from Current Docket
5. Removed from Current Docket at Applicant's Request

### **Redmond Zoning Code RZC 21.76.070.J.2.b - Minimum Threshold Criteria**

The criteria below are used to determine whether a proposal should be given further consideration as a docketed item. Attachment B shows at-a-glance how each of the six new proposals fares when evaluated against each criterion.

- i. Amending the Comprehensive Plan is the most appropriate mechanism available, as the desired outcome cannot be addressed as a regulatory, budgetary, or programmatic measure;*
- ii. The proposed Comprehensive Plan amendment is best addressed as an individually docketed item, instead of evaluating as part of a periodic update to Redmond's Comprehensive Plan, neighborhood plan update, or other planning processes such as those led by neighboring jurisdictions, regional, or state agencies;*
- iii. The proposed Comprehensive Plan amendment is consistent with existing local, state, and federal law;*
- iv. The proposed Comprehensive Plan amendment is timely with respect to other City and community initiatives and planned public and private development activity;*
- v. City Council, Planning Commission, and staff will have sufficient information necessary to analyze the proposal, develop a recommendation, and make an informed decision within the docket year;*
- vi. The proposed Comprehensive Plan amendment is consistent with the overall vision, policies, and adopted functional plans; and*
- vii. The proposed Comprehensive Plan amendment or similar amendment has not been considered or rejected within the last two years.*
