TITLE:

Prosecuting Attorney's Electronic Case Management System, a Component of ECM

OVERVIEW STATEMENT:

The City of Redmond Prosecutor's Office handles all city criminal misdemeanors, contested traffic infractions, appeals and all cases through the Redmond Community Court. Apart from standard Microsoft Office products, the Prosecutor's office has not kept pace with its peers in leveraging modern technology to automate workflow or digitize case files. Today, case files are maintained 100% in hard copy format. This limits the time a Prosecutor has to prepare for trial, it inhibits optimal communication with witnesses and victims of crime, and it causes delay in the prosecution of cases. An electronic case management system would improve case management business processes with a specific focus on electronic workflows and quick and easy access to case details which will eliminate inefficiencies caused by the manual handling of hard copy case files both in and out of the courtroom.

OUTCOMES:

An electronic case management system will reduce inefficiencies and increase the capacity of the Prosecuting Attorney's office by 30%. This allows them to absorb future growth, better prepare for hearings, and improve overall communications and management of case information. A complete Benefits Analysis for the proposed project is contained in the attached business case. (Attachment A)

ANTICIPATED RESULT IF NOT APPROVED:

King County District Court (KCDC) has implemented an electronic case management system which requires Redmond's Prosecuting Attorney's office to file all cases electronically beginning in November 2020. Without an electronic case management system, all hard copy case files will need to be organized and subsequently scanned into a suitable electronic file format in order to file a case. This will increase the time it takes to file and prosecute cases. These files, digitized by scanning, don't improve usability or increase process efficiencies as the content remains unindexed and is not easily searchable.

Without the electronic case management system, the increased workload due to growth as well as the new King County requirement for electronic submittal, will further delay our ability to prosecute in a timely manner and reduce the level of customer service we are able to provide.
