OUTCOMES:

The City of Redmond Utilities Strategic Plan will guide utility work from now until 2050. The plan includes a single mission statement for all four City-run utilities, and operating principles created to complement the City's Values. It identifies six objectives that the utilities must achieve to ensure the City continues to provide high quality utility services to the Redmond community. These include:

- Safely and responsibly manage City utility assets.
- Protect and restore the natural environment.
- Provide outstanding customer support and equitable services.
- Be the employer of choice for Utility staff.
- Coordinate City programs and processes to prepare for the future.
- Demonstrate regional leadership.

Each objective is accompanied by a set of specific strategies. There are 20 strategies in total. Each strategy includes a performance target that defines a desired outcome and a performance measure that will enable the City to evaluate our success in achieving that outcome.

COMMUNITY/STAKEHOLDER OUTREACH AND INVOLVEMENT:

- **Timeline (previous or planned):**

January 2020-Community Survey on the Utilities Strategic Framework

September 2020-Community Survey on the Utilities Strategic Plan

- **Outreach Methods and Results:**

The City used the *LetsConnect Redmond* website to conduct the community surveys. The first survey received 200 visitors, with 40 individuals participating in the survey. The second community survey was viewed by 260 visitors and completed by 55 individuals.

- **Feedback Summary:**

Overall, feedback indicated that the Redmond community supports the Utilities' proposed Mission, key objectives, and targeted 2-year actions. Survey findings are summarized in an appendix to the Utilities Strategic Plan.
